SITÉ FOR HOSPITAL STARTS MERRY ROW

Board of Lady Managers Want Fair Hearing by Alexandria Board of Trustees.

ALEXANDRIA, Va., Feb. 4.-The executive officers of the board of lady managers of the Alexandria Hospital have issued a statement giving an "inside" history of the selection of a site for the new Alexandria Hospital, a question which threatened to stop work on the new building for which Alexandria has subscribed \$40,000.

When the board of trustees at a meeting held two weeks ago decided that the location on Columbus street was the most available and refused to re-consider their previous decision to purconsider their previous decision to purchase that property, it was thought that harmony would be restored and that there would be no further efforts to secure a new location. But the ladies, at the end of their statement, declare that the action of the trustees will bring about "dissatisfied and discouraged workers" and that they still hope that "judicial heads among the trustees will find some better location for the new hospital which will meet with the hearty good will of the lady managers and physicians, and for which new life and energy will engage, all to work together in harmony."

The statement gives the correspondence that passed between the woman's board and the trustees, and says every member of the former body favored the Daingerfield site, which was not selected, and protested against the Columbus street site.

The women declare that they were not given a fair hearing by the board of trustees, and that they and the physicians will "most thoughtfully consider any further invitation from the board of trustees" to be present at any of their meetings.

ever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, ready to use, for, about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp, and falling hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.—Advt.
